DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on July, 6, 2008 has been entered.

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance:

The claims in the instant application have not been rejected using prior art because no references, or reasonable combination thereof could be found which disclose or suggest a floss comprising a first surface coating comprising a water soluble material and a second surface coating comprising a generally non-water soluble material the second coating encapsulating the first coating in combination with the elements from claim 1.

Further the claims in the instant application have not been rejected using prior art because no references, or reasonable combination thereof could be found which disclose or suggest a series of ratchet receiver members integrally formed with a wall of the housing, in combination with the elements of claim 3.

Further the claims in the instant application have not been rejected using prior art because no references, or reasonable combination thereof could be found which

Art Unit: 3732

disclose or suggest a stop mechanism comprising a front stop wall, a rear stop wall, and a stop member, wherein the housing is arranged so that at least one of the front and rear stop walls is part of an enclosed truss structure the truss structure comprising at least two ribs that extend generally transversely and longitudinally from the corresponding stop wall and the truss structure being enclosed within the housing outer wall, in combination with the elements of claim 28.

Further the claims in the instant application have not been rejected using prior art because no references, or reasonable combination thereof could be found which disclose or suggest an advancement mechanism comprising an axle rotatably supported by the housing, and a wheel that extends radially from the axle and rotates with the axle and a guard that extends radially from the axle and rotates with the axle, in combination with the elements of claim 36.

The closest prior art appears to be the Bergman reference (US 2002/0170570). Bergman discloses a hand-held flossing device comprising a housing having a handle portion (4) and a head portion (34) the housing supporting a floss supply comprising floss (30), a floss path (15), a floss advancement mechanism (22), and a stop mechanism (124) (see Figure 14). A wall (150) is disposed between the floss supply path and the floss return path in the housing head portion (see Figure 14; paragraph 51 and 52). A series of ratchet receiver members formed with the housing (see Figure 14). The floss supply path is defined within the housing between the floss supply and floss exit formed in the head portion, a floss return path defined within the housing between a floss entrance and the advancement mechanism (see Figure 14). The advancement

Art Unit: 3732

mechanism-ratcheting member comprises a rotatable member having an axle (40), the rotatable member is disposed in the handle forwardly of the floss supply and the floss supply path extends past the rotatable member (see Figure 14; paragraphs 51 and 52). The stop mechanism comprises a friction lock (paragraph 48). However, Bergman does not disclose the elements above and there are no references, or reasonable combination thereof found which discloses these elements in combination with the other claim elements.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
